ABOUT US...

Blueart was founded in 2010. It manufactures products with a high technological content paying particular attention to the impact on the environment.

The company's added value is represented by the following international certifications: ISO 9001, ISO 14001, ISO 45001, CE.

Blueart the beating heart of cutting-edge technology since 2011.

High quality combined with unrivalled technology has enabled us to re-interpret some of the rarest, most refined and valuable products of nature, while also enhancing their technical and qualitative properties, saving many of these materials from oblivion. In this way, Blueart allows you to appreciate and take full advantage of some of the most prized materials available. Other hallmarks include exceptional functionality, hygiene, safety and long-lasting durability. The concept of the material is new and constantly being developed upon in the search for ultimate quality.

Blueart technologies are unique: they are devised, designed and implemented directly in-house at the company's own sites,
